

Coconut Shell

Piazza Cocoa

This panel is made using coconut shells that are a byproduct from the food industry. The coconut shells used in our panels would have otherwise been burned or ended up as landfill.

Piazza Cocoa is a prefinished hardwearing product available from New Age Veneers on two different backing types.

Piazza Cocoa Ply: For all joinery work, bar fronts, reception counters and wall paneling applications Piazza Cocoa adhered to 5mm plywood is ideal.

Piazza Cocoa Tile: Available with a flexible mesh backing Piazza Cocoa Tile is perfect for use on contoured surfaces such as columns and curved walls. It can also be used for splash backs in wet areas. The durability of Piazza Cocoa Tile makes this product suitable for use as floor tiling in living areas.
