Navurban™ and **Navurban Diamond™** is a contemporary take on decorative surfaces, offering a striking collection of environmentally preferable designs that feature the innovative surface technologies from Japan.

The unique finish of **Navurban™** and **Navurban Diamond™** delivers a 3D embossed surface texture with advanced performance characteristics. The embossing creates a tactile surface in a range of effects, including finely textured woodgrains and smooth finishes.

TECHNICAL ADVANTAGES

Navurban™ and Navurban Diamond™ offers consistency in woodgrain structure and tone across each panel, creating the ideal surface for large or small installations. The surface finish offers scratch and abrasion resistance, as well as UV, stain and water resistant; offering savings in fabrication costs and ease of installation. Navurban™ and Navurban Diamond™ is available as a finished panel on your substrate of choice, with matching ABS edging to complete the project.

FEATURES & BENEFITS

The hard-wearing decorative surface is a Non PVC decorative sheet with advanced embossing and texture capabilities. The benefits of Navurban™ and Navurban Diamond™ include:

- Extensive range of designs
- Pre finished board
- Colour and grain consistency over a large number of sheets
- Matching ABS edging
- Scratch and abrasion resistance
- High levels UV resistance
- When recycled breaks down to Carbon Dioxide and Water
- Adhered to the substrate using low VOC (Volatile Organic Compound) crosslinking water-based EVA glue

Please refer to the website for full details of Navurban™ and Navurban Diamond™ environmental credentials. Navurban™ and Navurban Diamond™ is produced in Australia to ensure the highest levels of quality and service, no matter how small or large your project.

GRAIN DIRECTION

Navurban™ and Navurban Diamond™ grain runs vertically along the length of the panel. Please refer to the Product Specification List for further details.

EDGING

Navurban™ and Navurban Diamond™ matching ABS edging range is available in 1.0mm. The edging is also available in 22mm, 38mm and 54mm widths to suit a wide range of panel thicknesses. ABS is a durable edging alternative that is ideal for high traffic areas and suitable for wet areas.

Note: Navurban™ Laminate and Navurban Diamond™ Laminate must not be used for edging purposes and will void warranty if chosen to do so.

GUARANTEE

New Age Veneers Pty Ltd guarantees the intrinsic qualities of Navurban™ and Navurban Diamond™. Although Navurban™ and Navurban Diamond™ have been tested for up to 2000 hours of UV exposure, discoloration due to exposure to sunlight and ultraviolet rays cannot be considered a material defect. In the event of any dispute, the guarantee and liability of New Age Veneers Pty Ltd is limited to the replacement of any material shown to be defective.

New Age Veneers Pty Ltd reserves the right to discontinue any designs or products without notice at any time.

--	--

A de-lamination will not be classified as a product fault if the product has first been intentionally picked at along any of the exposed edges, this will be classed as a purpose act and will void warranty on the product.

FABRICATION

Panel saws or table saws may be used to cut Navurban™ and Navurban Diamond™. Routers for trimming edges must have a smooth, clean base plate, so that the surface will not be scratched. Use carbide-tipped bits with ball bearing guide rolls. Keep all bits sharp. Drilling into Navurban™ and Navurban Diamond™ may be done with standard wood bits or with router bits. For a final edge finishing use a flat smooth or fine file.

MAINTENANCE

Navurban™ and Navurban Diamond™ surfaces are easy to clean using a cloth dampened with warm water and detergent. If in doubt about a particular cleaner or detergent, check with its manufacturer for the suitability. We recommend you test on a small area or sample prior to applying to the surface. Avoid the use of acetone or trichloroethylene for cleaning purposes. Use of abrasive cleaners, powders, scouring pads, steel wool, sandpaper etc. can damage the finish and make the surface susceptible to staining. Accidental spills or splatters from these harsh materials should be wiped off immediately, and the area cleaned thoroughly with a damp cloth. Examples of these materials are: Ceramic cooktop cleaners, tub and tile cleaners, chlorine bleach, oven cleaners, and harsh detergents. For information regarding touch up and repairs please contact your local representative or call 02 9457 9622.

TECHNICAL SPECIFICATIONS

Navurban™ and Navurban Diamond™ Panel Size: 2400mm x 1200mm, 3600mm x 1200mm. 2400mm x 1200mm x 18mm and 3600mm x 1200mm x 18mm, 25mm and 32mm. All boards are finished G2S on a E0 MR MDF as a standard.

Navurban™ Laminate and Navurban Diamond™ Laminate Size: 3050mm x 1220mm x .07mm.
