An edgebanding range designed to complement our existing range of products. Product Use: Edging for cabinetry/kitchen doors and solid core doors, hollow doors, bench tops, table tops. ABS Diverso is ideal for use in heavy traffic areas. General maintenance: Cleaning is best achieved by using warm water and detergent. Application: Edging can be applied by using conventional hot melt edgebanders. Contact adhesive or water based adhesive can also be used.

* Grain Direction - Vertical

* NAVURBAN™ MDF Substrate and NAVURBAN Diamond™ MDF Substrate along with NAVURBAN™ Laminate and NAVURBAN Diamond[™] have achieved both Global GreenTagCert[™] GreenRate[™], Level B Certification and also a Global GreenTag Product Health Declaration[™] (GreenTag PHD[™]) with a Global GreenTag PlatinumHEALTH™ HealthRATE™ Certification outcome * Please see our website for more information.

NAVURBAN[™] and NAVURBAN

Diamond[™] is a contemporary take on decorative surfaces, offering a striking collection of environmentally preferable designs that feature the innovative surface technologies from Japan. The unique finish of NAVURBAN[™] and NAVURBAN Diamond[™] delivers a 3D embossed surface texture with advanced performance characteristics. The embossing creates a tactile surface in a range of effects, including finely textured woodgrains and smooth finishes.

Technical Advantages

ideal surface for large or small installations. The surface finish offers scratch and abrasion resistance, as well as UV, stain and water resistant; offering savings in fabrication costs and ease of installation. NAVURBAN™ and NAVURBAN Diamond™ is available as a finished panel on your substrate of choice, with matching ABS edging to complete the project.

Grain Direction

NAVURBAN[™] and NAVURBAN Diamond[™] grain runs vertically along the length of the panel.

Edging

NAVURBAN[™] and NAVURBAN Diamond[™] matching ABS edging range is available in 22mm, 38mm and 54mm widths by 1.0mm. ABS is a durable edging alternative that is ideal for high traffic areas and suitable for wet areas.

Note: NAVURBAN™ Laminate and NAVURBAN Diamond™ Laminate must not be used for edging purposes and will void warranty if chosen to do so.

Guarantee

NAVURBAN Diamond[™] have been tested for up to 2000 hours of UV exposure, discoloration due to exposure to sunlight and ultraviolet rays cannot be considered a material defect. In the event of any dispute, the guarantee and liability of New Age Veneers Pty Ltd is limited to the replacement of any material shown to be defective.

New Age Veneers Pty Ltd reserves the right to discontinue any designs or products without notice at any time.

Fabrication

Panel saws or table saws may be used to cut $\mathsf{NAVURBAN}^{\mathsf{TM}}$ and carbide-STEPSped bits with ball bearing guide rolls. Keep all bits sharp. Drilling into NAVURBAN™ and NAVURBAN Diamond™ may be done with standard wood bits or with router bits. For a final edge finishing use a flat smooth or fine file.

NAVURBAN[™] Laminate and NAVURBAN Diamond[™] Laminate has

A de-lamination will not be classified as a product fault if the product has first been intentionally picked at along any of the exposed edges, this will be classed as a purpose act and will void warranty on the product.

Features & Benefits

The benefits of NAVURBAN[™] and NAVURBAN

- Extensive range of designs
- Pre finished board
- Colour and grain consistency over a large number of sheets
- Matching ABS edging
- Scratch and abrasion resistance
- High level UV resistance
- Adhered to the substrate using low VOC (Volatile Organic Compound) crosslinking water-based EVA glue

Please refer to the website for full details of NAVURBAN[™] and NAVURBAN Diamond[™] environmental credentials. NAVURBAN[™] and NAVURBAN Diamond[™] is produced in Australia to ensure the highest levels of quality and service.

Maintenance

NAVURBAN[™] and NAVURBAN Diamond[™] surfaces are easy to clean using a cloth dampened with warm water and detergent. If in doubt about a particular cleaner or detergent, check with its manufacturer for the suitability. We recommend you test on a small area or sample prior to applying to the surface. Avoid the use of acetone or trichloroethylene for cleaning purposes. Use of abrasive cleaners, powders, scouring pads, steel wool, sandpaper etc. can damage the finish and make the surface susceptible to staining. Accidental spills or splatters from these barsh materials should be wiped off immediately, and the area cleaned thoroughly with a damp cloth. Examples of these materials are: Ceramic cooktop cleaners, tub and tile cleaners, chlorine bleach, oven cleaners, and harsh detergents.
