

Bring your vision to life,
with New Age Veneers.

Your Space Your Story™

60 years of Australian Innovation –

Our enduring commitment to delivering high-quality solutions has cemented our position as a trusted provider. With our dedicated service, we take immense pride in our reputation for excellence.

From the inception of New Age Veneers™ in 1962, Kevin Kelly has led our team in embracing innovation, transitioning from traditional veneer manufacturing to pioneering pre finished wood grain effect surfaces and reconstructed veneers.

Collaborating closely with architects, designers and the building industry as a whole we've remained at the forefront of the industry, continuously pushing boundaries to exceed creative expectations.

At NAV we have cornerstones of commitments practiced throughout our business. We value customer centricity ensuring customer satisfaction and creativity to push the boundaries of designs. Innovation drives the NAV team for cutting-edge solutions.

We are the top destination of Australian Made surfaces offering design innovations, craftsmanship assurance, sustainability commitment and integrated solutions.

Embodied in our tagline, 'Your Space, Your Story,' we are committed to bringing our clients' individual visions to life. Whether it's for a home, workplace or retail venue, every space has a story to tell and it is our pride, and the core commitment of our team, to bring these stories to the surface.

NAV is proud to be an Australian-made and owned company, we respect and protect the environment around us that we call home. Environmental responsibility is at the heart of everything we do—we meticulously source raw timber materials from sustainably managed forests.

The image shows a sophisticated interior design. A large, curved wall is clad in dark wood. In the foreground, a curved bar counter features a decorative pattern of green and white tiles. A woman in a dark blazer stands behind the bar, holding a bouquet of flowers. In the background, a dining area with tables and chairs is visible, along with a man in a suit. The ceiling is high with exposed wooden beams and modern lighting fixtures. Large windows on the left side provide natural light.
