Verification Methodology

1.0 Scope

The Global GreenTag's Modern Slavery Product Declaration is a facilitation service designed to provide the subject company with an additional level of robustness to their declaration in compliance with Modern Slavery Acts that:

- Provides a third party verified Modern Slavery assessment of product supply chains to the extent possible;
- Provides assessment transparency and gives a quick evaluation overview;
- Uses simple easy to understand colour keys to explain risks;
- Identifies Modern Slavery risks and how they are mitigated (or not);
- Promotes and recognises manufacturers and suppliers willing to be 100% transparent as the Leaders they are;
- Provides plain language explanations of any recognised or assumed Modern Slavery in the supply chain;
- Provides guidance on the 'level of reliability' attached to risk assessments undertaken from 'onsite audit' to 'research based' verification;
- Provides reporting suitable for aggregating into company level reports for companies caught by relevant Acts, especially for companies with large procurement portfolios and mandatory legislative reporting requirements.

The GreenTag MSD is ultimately the subject Company's Modern Slavery declaration on their product Supply chain and is declared as such by a competent public officers of the subject company.

2.0 Preparing MSD

GGT MSD are prepared after reviewing numerous documents including, but not limited to, the Australian Government's guidance for reporting entities, UK Modern Slavery Act, QLD HRA, Australian Council of Superannuation Investors' (ACSI) Modern Slavery Risks, Rights & Responsibilities, and ETI and ERGON's Managing Risks Associated with Modern Slavery: A Good Practice Not for the Private Sector. Verifications are undertaken by GGT Qualified Exemplar Global Lead Auditors and are reviewed by both the GGT Program Director (also a Qualified Exemplar Global Lead Auditor) and the subject Company's Executive Management.

3.0 Assessment

Global GreenTag will map product supply chain and collect evidence from the supply chain to the extent possible. Company and its suppliers are requested to submit their procurement policies, quality statements, corporate policies, employment policies and contracts, Non-conformance registers, Human Resource policies, Modern Slavery policy, etc. These documents are reviewed and an explanation on any identified MS issues is requested from company/supplier. Based on the information and further evidence received from Company and its suppliers, Global GreenTag will verify each supplier and determine their compliance to MS from 'Low Risk' to 'Undetermined Risk', see table 1 for 5 scale code. The data quality of the supply chain assessment will be classified from 'Onsite audit' to 'No data available or Obscure Supply Chain', see table 2

Table 1: MS Risk Assessment of Supply Chains
